

COYOTE® Defender 2

Ballistic Protection for the COYOTE® Dome Closure CRB System for OPGW

GENERAL INFORMATION

The new COYOTE® Defender 2 is a condensed version of its predecessor as it is tailored to accommodate the COYOTE® Dome Closure CRB System for OPGW. In comparison to the original Defender, the Defender 2 reduces overall weight by 1/3 without sacrificing the level of ballistic protection as the 7 gauge steel thickness remains the same.

The Defender 2 has two hinged doors with one door that mounts against the structure and the cover door that swings open for easy access. Separating the doors during installation keeps the weight (37#/door) and size manageable and safe to handle.

MOUNTING OPTIONS: The Defender 2 can be mounted direct to the structure via 5/8" through bolts, DA bolts, or 1-1/4" wide band material. The Defender 2 can also be mounted to the FIBERLIGN® Cable Storage 2 at cable storage locations.

ORDERING INSTRUCTIONS

Order Catalog Number 80061194 to receive the COYOTE® Defender 2 kit shown above. As shown below, this kit can be mounted to the FIBERLIGN® Cable Storage 2 kit #80061195 (ordered separately). For more details about FIBERLIGN® Cable Storage 2, see earlier section.

Catalog Number	Cable Storage and Ballistic Protection**
80061195	FIBERLIGN® CABLE Storage 2 for OPGW, 60" Loop
80061194	COYOTE® DEFENDER 2 for 6.5" x 17" and 6.5" x 22" Domes

**COYOTE Dome Kits include a Mounting Adapter that can vertically mount the dome directly to wood poles or band to metal poles. The modular design of the mounting adapter can be mounted to the FIBERLIGN® CABLE Storage 2 and COYOTE Defender 2 as well.
