Heavy Duty Thimbles

Be sure to read and completely understand this procedure before applying product. Be sure to select the proper size PREFORMED™ product before application.

### Step #1
Insert the appropriate thimble size into the cabled loop of the TREE-GRIP™ Dead-end.

### Step #2
If PLP’s Heavy-Duty Thimble with the captured tab is being used, bend the tab with pliers or similar hand tool. **DO NOT** use a sharp tool such as a wire cutter directly onto the tab.

### Step #3
Start wrapping the TREE-GRIP™ Dead-end onto the appropriate sized galvanized steel strand as explained in the TREE-GRIP™ (SP2056) application procedure.

### TREE-GRIP Dead-end

SAFETY CONSIDERATIONS

This application procedure is not intended to supersede any company construction or safety standards. This procedure is offered only to illustrate safe application for the individual. **FAILURE TO FOLLOW THESE PROCEDURES MAY RESULT IN PERSONAL INJURY OR DEATH.**

This product is intended for a single (one time) use and for the specified application. **Do not reuse or modify this product under any circumstances.**

This product is intended for use by trained technicians only. **This product should not be used by anyone who is not familiar with, and not trained to use it.**

When working in the area of energized lines, extra care should be taken to prevent accidental electrical contact.

For proper performance and personal safety, be sure to select the proper size PREFORMED product before application.

PREFORMED products are precision devices. To ensure proper performance, they should be stored in cartons under cover and handled carefully.
