POWER MAX™
Ballasted Roof Mounting System
Flush, Dual Tilt, and 5° or 10° Tilt
The POWER MAX™ PV Solar Mounting System
Maximizes energy density, provides design flexibility and installs faster on commercial roof tops.

The POWER MAX is a fully ballasted, high-strength mounting structure developed with the professional installer in mind. Featuring minimum components and no loose hardware, the POWER MAX is designed to provide a faster assembly and shorter learning curve.

The modular design simplifies roof layouts, ordering and final installation while stackable components reduce shipping volume and provide easy transport of materials to the roof. The new POWER MAX is backed by our 20+ years of industry experience, engineering support and dedicated customer service.

Flush System

Pre-assembled Base (All 3 Systems)

Pre-assembled Clamps

Seismic Attachment Options (All 3 Systems)

High Wind Tubes Optional (All 3 Systems)

Dual Tilt System

10˚ Tilt Maximizes Energy and Reduces Soiling

Pre-assembled Clamps
Performance and Simplicity Combined

**Tilted System**

- 5’ or 10’ Tilt
- Slide Adjustable Tilt Brackets
- High Wind Deflectors Optional
- Pre-assembled Clamps
- Inter-Row Spacing

**POWER MAX™ Recommended Product Solution**

The POWER MAX™ PV Solar Mounting System

Quick Assembly
- Factory Pre-assembled Base
- Single Tool
- Pre-assembled Clamp – No Loose Hardware
- Easier Transport – Stackable, Lightweight Bases
- Top Down Clamping / 50% Faster Install

Adaptable
- Choice of Three Systems:
  1) Flush
  2) Dual Tilt
  3) 5° or 10° Tilt
- Seismic Attachment Options
- Handles Roof Undulations
- High Wind Speed Options
- Unique Adjustable Inter-Row Spacing Options

Reliable
- Wind Tunnel Optimized – Reduces Ballast
- Integrated Grounding – Code Compliant
- Recyclable Materials
- Non-corrosive Construction

11" of Adjustable Slot Spacing
