Communications Spacers

PREFORMED™ Communications Spacers provide an inexpensive way of eliminating mid-span hits on open wire. Spacers keep open wires in their place and prevent lines from "going dead" and momentary shorts and crosses.

Made from rigid, solid $\frac{3}{8}$ ", high-impact, PVC, Communications Spacers possess excellent strength properties. They are designed with a suitable inside diameter for direct application to mid-span locations, and are easily wrapped onto adjacent wires.
