

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2015

Commission file number: 0-31164

Preformed Line Products Company
(Exact Name of Registrant as Specified in Its Charter)

<u>Ohio</u> (State or Other Jurisdiction of Incorporation or Organization)	<u>34-0676895</u> (I.R.S. Employer Identification No.)
<u>660 Beta Drive Mayfield Village, Ohio</u> (Address of Principal Executive Office)	<u>44143</u> (Zip Code)
<u>(440) 461-5200</u> (Registrant's telephone number, including area code)	

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days.
Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).
Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

The number of common shares outstanding as of May 1, 2015: 5,393,371.

PREFORMED LINE PRODUCTS COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

(In thousands, except share and per share data, unless specifically noted)

NOTE A – BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements of Preformed Line Products Company and subsidiaries (the “Company” or “PLPC”) have been prepared in accordance with United States of America (U.S.) generally accepted accounting principles (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X.

The preparation of these consolidated financial statements requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and the accompanying notes. Actual results could differ from these estimates. In the opinion of management, these consolidated financial statements contain all estimates and adjustments, consisting of normal recurring accruals, required to fairly present the financial position, results of operations, and cash flows for the interim periods. Operating results for the three months ended March 31, 2015 are not necessarily indicative of the results to be expected for the full year ending December 31, 2015.

The Consolidated Balance Sheet at December 31, 2014 has been derived from the audited consolidated financial statements, but does not include all of the information and notes required by U.S. GAAP for complete financial statements. For further information, refer to the consolidated financial statements and notes to consolidated financial statements included in the Company’s 2014 Annual Report on Form 10-K filed on March 12, 2015 with the Securities and Exchange Commission.

NOTE B – OTHER FINANCIAL STATEMENT INFORMATION

Inventories – net

	March 31, <u>2015</u>	December 31, <u>2014</u>
Finished products	\$ 40,227	\$ 41,634
Work-in-process	8,949	7,964
Raw materials	<u>36,763</u>	<u>40,423</u>
	85,939	90,021
Excess of current cost over LIFO cost	(4,558)	(4,471)
Noncurrent portion of inventory	<u>(5,284)</u>	<u>(5,513)</u>
	<u>\$ 76,097</u>	<u>\$ 80,037</u>

Cost of inventories for certain material is determined using the last-in-first-out (LIFO) method and totaled approximately \$26.5 million at March 31, 2015 and \$27 million at December 31, 2014. An actual valuation of inventories under the LIFO method can be made only at the end of the year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations must be based on management’s estimates of expected year-end inventory levels and costs. Because these estimates are subject to change and may be different than the actual inventory levels and costs at the end of the year, interim results are subject to the final year-end LIFO inventory valuation. During the three months ended March 31, 2015, the net change in LIFO inventories resulted in a \$.1 million charge to Income before income taxes. During the three months ended March 31, 2014, the net change in LIFO inventories resulted in a \$.1 million benefit to Income before income taxes.

Noncurrent inventory is included in Other assets on the Consolidated Balance Sheets.

Property, plant and equipment - net

Major classes of Property, plant and equipment are stated at cost and were as follows:

	<u>March 31,</u> <u>2015</u>	<u>December 31,</u> <u>2014</u>
Land and improvements	\$ 13,329	\$ 14,173
Buildings and improvements	73,847	75,587
Machinery and equipment	139,959	144,213
Construction in progress	<u>4,058</u>	<u>3,382</u>
	231,193	237,355
Less accumulated depreciation	<u>133,307</u>	<u>134,824</u>
	<u>\$ 97,886</u>	<u>\$ 102,531</u>

Legal proceedings

From time to time, the Company may be subject to litigation incidental to its business. The Company is not a party to any pending legal proceedings that the Company believes would, individually or in the aggregate, have a material adverse effect on its financial condition, results of operations, or cash flows.

NOTE C – PENSION PLANS

The Company uses a December 31 measurement date for the Preformed Line Products Company Employees' Retirement Plan (the "Plan"). Net periodic benefit cost for this plan included the following components:

	<u>Three Months Ended March 31</u>	
	<u>2015</u>	<u>2014</u>
Service cost	\$ 27	\$ 23
Interest cost	358	340
Expected return on plan assets	(465)	(449)
Recognized net actuarial loss	<u>139</u>	<u>3</u>
Net periodic benefit cost (income)	<u>\$ 59</u>	<u>\$ (83)</u>

No contributions were made to the Plan during the three months ended March 31, 2015. The Company does not anticipate contributing to the Plan in 2015.

NOTE D – ACCUMULATED OTHER COMPREHENSIVE INCOME (“AOCI”)

The following tables set forth the total changes in AOCI by component, net of tax:

	Three Months Ended March 31, 2015			Three Months Ended March 31, 2014		
	Defined benefit pension plan activity	Currency Translation Adjustment	Total	Defined benefit pension plan activity	Currency Translation Adjustment	Total
Balance at January 1	\$ (7,007)	\$ (28,127)	\$ (35,134)	\$ (1,905)	\$ (15,797)	\$ (17,702)
Other comprehensive income (loss) before reclassifications:						
Gain (loss) on foreign currency translation adjustment	0	(8,614)	(8,614)	0	1,830	1,830
Amounts reclassified from AOCI:						
Amortization of defined benefit pension actuarial loss (a)	86	0	86	2	0	2
Net current period other comprehensive income (loss)	86	(8,614)	(8,528)	2	1,830	1,832
Balance at March 31	\$ (6,921)	\$ (36,741)	\$ (43,662)	\$ (1,903)	\$ (13,967)	\$ (15,870)

(a) This AOCI component is included in the computation of net periodic pension costs.

NOTE E – COMPUTATION OF EARNINGS PER SHARE

Basic earnings per share were computed by dividing Net income (loss) by the weighted-average number of common shares outstanding for each respective period. Diluted earnings per share were calculated by dividing Net income (loss) by the weighted-average of all potentially dilutive common stock that was outstanding during the periods presented.

The calculation of basic and diluted earnings per share for the three months ended March 31, 2015 and 2014 was as follows:

	Three Months Ended March 31	
	2015	2014
Numerator		
Net income (loss)	\$ (256)	\$ 2,738
Denominator		
Determination of shares		
Weighted-average common shares outstanding	5,396	5,392
Dilutive effect - share-based awards	0	39
Diluted weighted-average common shares outstanding	5,396	5,431
Earnings per common share		
Basic	\$ (0.05)	\$ 0.51
Diluted	\$ (0.05)	\$ 0.50

For the three months ended March 31, 2015 and 2014, 59,750 and 17,000 stock options, respectively, were excluded from the calculation of diluted earnings per share as the effect would have been anti-dilutive.

For the three months ended March 31, 2015 and 2014, 12,775 and 55,312 restricted share units, respectively, were excluded from the calculation of diluted earnings per share as the effect of the settlement in common shares would have been anti-dilutive.

NOTE F – GOODWILL AND OTHER INTANGIBLES

The Company's finite and indefinite-lived intangible assets consist of the following:

	March 31, 2015		December 31, 2014	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Finite-lived intangible assets				
Patents	\$ 4,820	\$ (4,801)	\$ 4,823	\$ (4,730)
Land use rights	1,202	(166)	1,247	(164)
Trademark	1,815	(836)	1,888	(814)
Customer backlog	605	(605)	605	(605)
Technology	3,275	(766)	3,432	(734)
Customer relationships	12,543	(4,070)	13,104	(3,931)
	<u>\$ 24,260</u>	<u>\$ (11,244)</u>	<u>\$ 25,099</u>	<u>\$ (10,978)</u>
Indefinite-lived intangible assets				
Goodwill	<u>\$ 16,958</u>		<u>\$ 17,792</u>	

The aggregate amortization expense for other intangibles with finite lives for the three months ended March 31, 2015 and 2014 was \$.4 million for each period. Amortization expense is estimated to be \$.8 million for the remaining period of 2015, \$1.1 million for 2016, \$1 million for 2017, \$1 million for 2018 and \$1 million for 2019. The weighted-average remaining amortization period is approximately 21.2 years. The weighted-average remaining amortization period by intangible asset class is as follows: patents, 10.8 years; land use rights, 59.9 years; trademark, 10.4 years; technology, 16.6 years; and customer relationships, 14.8 years.

The Company's measurement date for its annual impairment test for goodwill is October 1st of each year. There were no indications of impairment during the three months ended March 31, 2015. The Company performs its annual impairment test for goodwill utilizing a combination of discounted cash flow methodology, market comparables and an overall market capitalization reasonableness test in computing fair value by reporting unit. The Company then compares the fair value of the reporting unit with its carrying value to assess if goodwill has been impaired. Based on the assumptions as to growth, discount rates and the weighting used for each respective valuation methodology, results of the valuations could be significantly different. The Company believes that the methodologies and weightings used are reasonable and result in appropriate fair values of the reporting units.

The Company's only intangible asset with an indefinite life is goodwill. The changes in the carrying amount of goodwill, by segment, for the three months ended March 31, 2015, are as follows:

	The Americas	EMEA	Asia-Pacific	Total
Balance at January 1, 2015	\$ 7,750	\$ 1,528	\$ 8,514	\$ 17,792
Currency translation	<u>(376)</u>	<u>(82)</u>	<u>(376)</u>	<u>(834)</u>
Balance at March 31, 2015	<u>\$ 7,374</u>	<u>\$ 1,446</u>	<u>\$ 8,138</u>	<u>\$ 16,958</u>

NOTE G – SHARE-BASED COMPENSATION

The 1999 Stock Option Plan

Activity in the Company's 1999 Stock Option Plan for the three months ended March 31, 2015 was as follows:

	Number of Shares	Weighted Average Exercise Price per Share	Weighted Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value
Outstanding at January 1, 2015	12,000	\$41.44		
Granted	0	\$0.00		
Exercised	0	\$0.00		
Forfeited	0	\$0.00		
Outstanding (exercisable and vested) at March 31, 2015	<u>12,000</u>	\$41.44	2.6	\$47

There were no stock options exercised during the three months ended March 31, 2015 or 2014.

For the three months ended March 31, 2015 and 2014, the Company recorded no compensation expense related to stock options for either period as all options are fully vested.

Long Term Incentive Plan of 2008

Under the Preformed Line Products Company Long Term Incentive Plan of 2008 (the "LTIP"), certain employees, officers, and directors are eligible to receive awards of options, restricted shares and restricted share units. The purpose of this LTIP is to give the Company a competitive advantage in attracting, retaining, and motivating officers, employees and directors and to provide an incentive to those individuals to increase shareholder value through long-term incentives directly linked to the Company's performance. The total number of Company common shares reserved for awards under the LTIP is 900,000. Of the 900,000 common shares, 800,000 common shares have been reserved for restricted share units and 100,000 common shares have been reserved for stock options. The LTIP expires on April 17, 2018.

Restricted Share Units

For all of the participants except the CEO, a portion of the restricted share units (RSUs) is subject to time-based cliff vesting and a portion is subject to vesting based upon the Company's performance over a three-year period. All of the CEO's RSUs are subject to vesting based upon the Company's performance over a three-year period.

The RSUs are offered at no cost to the employees; however, the participant must remain employed with the Company until the restrictions on the RSUs lapse. The fair value of RSUs is based on the market price of a common share on the grant date. The Company currently estimates that no RSUs will be forfeited. Dividends declared are accrued in cash.

A summary of the RSUs for the three months ended March 31, 2015 is as follows:

	<u>Restricted Share Units</u>			Weighted-Average Grant-Date Fair Value
	Performance and Service Required	Service Required	Total Restricted Share Units	
Nonvested as of January 1, 2015	88,508	10,413	98,921	\$ 67.36
Granted	50,927	6,073	57,000	45.85
Vested	0	0	0	0.00
Forfeited	0	0	0	0.00
Nonvested as of March 31, 2015	<u>139,435</u>	<u>16,486</u>	<u>155,921</u>	<u>\$ 59.50</u>

For time-based RSUs, the Company recognizes stock-based compensation expense on a straight-line basis over the requisite service period of the award in General and administrative expense in the accompanying Statements of Consolidated Income. Compensation expense related to the time-based RSUs for the three months ended March 31,

2015 and 2014 was \$.1 million for each period. As of March 31, 2015, there was \$.6 million of total unrecognized compensation cost related to time-based RSUs that is expected to be recognized over the weighted-average remaining period of approximately 2 years.

For the performance-based RSUs, the number of RSUs in which the participants will vest depends on the Company's level of performance measured by growth in pretax income and sales growth over a requisite performance period. Depending on the extent to which the performance criteria are probable of being satisfied under the LTIP, the participants are eligible to earn common shares over the vesting period. Performance-based compensation expense for the three months ended March 31, 2015 and 2014 was \$.4 million and \$.6 million, respectively. During the three months ended March 31, 2015, a \$.4 million increase in performance-based compensation expense was recorded related to the 2013 performance-based RSU grant, due to changes in estimates for growth in sales. During the three months ended March 31, 2015, a \$.4 million reduction in performance-based compensation expense was recorded related to the 2014 performance-based RSU grant, due to changes in estimates for growth in sales and pretax income. As of March 31, 2015, the remaining performance-based RSUs compensation expense of \$3.6 million is expected to be recognized over a period of approximately 2.3 years.

The excess tax benefits from service and performance-based RSUs for the three months ended March 31, 2015 and 2014 was less than \$.1 million and \$.2 million, respectively, as reported on the Consolidated Statements of Cash Flows in financing activities, and represents the reduction in income taxes otherwise payable during the period, attributable to the actual gross tax benefits in excess of the expected tax benefits for RSUs vested in the current period.

In the event of a Change in Control (as defined in the LTIP), vesting of the RSUs will be accelerated and all restrictions will lapse. Unvested performance-based awards are based on a maximum potential payout. Actual shares awarded at the end of the performance period may be less than the maximum potential payout level depending on achievement of performance-based award objectives.

To satisfy the vesting of its RSU awards, the Company has reserved new shares from its authorized but unissued shares. Any additional granted awards will also be issued from the Company's authorized but unissued shares. Under the LTIP, there are 327,398 common shares currently available for additional RSU grants.

Deferred Compensation Plan

The Company maintains a trust, commonly referred to as a rabbi trust, in connection with the Company's deferred compensation plan. This plan allows for two deferrals. First, Directors make elective deferrals of Director fees payable and held in the rabbi trust. The deferred compensation plan allows the Directors to elect to receive Director fees in common shares of the Company at a later date instead of fees paid each quarter in cash. Second, this plan allows certain Company employees to defer LTIP restricted shares or RSUs for future distribution in the form of common shares. Assets of the rabbi trust are consolidated, and the value of the Company's stock held in the rabbi trust is classified in Shareholders' equity and generally accounted for in a manner similar to treasury stock. The Company recognizes the original amount of the deferred compensation (fair value of the deferred stock award at the date of grant) as the basis for recognition in common shares issued to the rabbi trust. Changes in the fair value of amounts owed to certain employees or Directors are not recognized as the Company's deferred compensation plan does not permit diversification and must be settled by the delivery of a fixed number of the Company's common shares. As of March 31, 2015, 289,942 shares have been deferred and are being held by the rabbi trust.

Share Option Awards

The LTIP plan permits the grant of 100,000 options to buy common shares of the Company to certain employees at not less than fair market value of the shares on the date of grant. At March 31, 2015 there were 21,500 shares remaining available for issuance under the LTIP. Options issued to date under the Plan vest 50% after one year following the date of the grant, 75% after two years, and 100% after three years and expire from five to ten years from the date of grant. Shares issued as a result of stock option exercises will be funded with the issuance of new shares.

The Company utilizes the Black-Scholes option pricing model for estimating fair values of options. The Black-Scholes model requires assumptions regarding the volatility of the Company's stock, the expected life of the stock award and the Company's dividend yield. The Company utilizes historical data in determining these assumptions. The risk-free rate for periods within the contractual life of the option is based on the U.S. zero coupon Treasury yield

in effect at the time of grant. Forfeitures have been estimated to be zero.

There were 0 and 17,000 options granted for the three months ended March 31, 2015 and 2014, respectively.

The fair value for the stock options granted in 2014 was estimated at the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions:

	<u>2014</u>
Risk-free interest rate	1.7%
Dividend yield	1.7%
Expected life (years)	5
Expected volatility	45.8%

Activity in the Company's LTIP plan for three months ended March 31, 2015 was as follows:

	<u>Number of Shares</u>	<u>Weighted Average Exercise Price per Share</u>	<u>Weighted Average Remaining Contractual Term (Years)</u>	<u>Aggregate Intrinsic Value</u>
Outstanding at January 1, 2015	47,750	\$58.11		
Granted	0	\$0.00		
Exercised	0	\$0.00		
Forfeited	<u>0</u>	<u>\$0.00</u>		
Outstanding (vested and expected to vest) at March 31, 2015	<u>47,750</u>	\$58.11	8.6	\$0
Exercisable at March 31, 2015	<u>20,500</u>	\$60.32	7.5	\$0

The weighted-average grant-date fair value of options granted during 2014 was \$25.79. There were 0 and 1,250 stock options exercised during the three months ended March 31, 2015 and 2014, respectively. The total intrinsic value of stock options exercised during the three months ended March 31, 2015 and 2014 was zero and less than \$.1 million. Cash received for the exercise of stock options during the three months ended March 31, 2015 and 2014 was zero and \$.1 million.

For the three months ended March 31, 2015 and 2014, the Company recorded compensation expense related to the stock options currently vesting of \$.1 million and \$.1 million, respectively. The total compensation cost related to nonvested awards not yet recognized at March 31, 2015 is expected to be a combined total of \$.4 million over a weighted-average period of approximately 2.2 years.

NOTE H – FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES

The carrying value of the Company's current financial instruments, which include cash and cash equivalents, accounts receivable, accounts payable, notes payable, and short-term debt, approximates its fair value because of the short-term maturity of these instruments. At March 31, 2015, the fair value of the Company's long-term debt was estimated using discounted cash flows analysis, based on the Company's current incremental borrowing rates for similar types of borrowing arrangements which are considered to be Level 2 inputs. There have been no transfers in or out of Level 2 for the three months ended March 31, 2015. Based on the analysis performed, the fair value and the carrying value of the Company's long-term debt are as follows:

	March 31, 2015		December 31, 2014	
	Fair Value	Carrying Value	Fair Value	Carrying Value
Long-term debt and related current maturities	\$ 30,860	\$ 30,852	\$ 31,876	\$ 31,865

NOTE I – RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS

In April 2014, the FASB issued ASU 2014-08, “Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity,” or ASU 2014-08. ASU 2014-08 changes the criteria for reporting a discontinued operation. Under the new pronouncement, a disposal of a part of an organization that has a major effect on its operations and financial results is a discontinued operation. The Company is required to adopt ASU 2014-08 prospectively for all disposals or components of the business classified as held for sale during the fiscal period beginning after December 15, 2014. The Company adopted the guidance in the first quarter of 2015 and it did not have an effect on the Company’s results of operations, financial condition or cash flows.

NOTE J – NEW ACCOUNTING STANDARDS TO BE ADOPTED

In January 2015, the FASB issued Accounting Standards Update 2015-01, “Income Statement-Extraordinary and Unusual Items (Subtopic 225-20): Simplifying Income Statement Presentation by Eliminating the Concept of Extraordinary Items. This Update eliminates from GAAP the concept of extraordinary items. A material event or transaction that an entity considers to be of an unusual nature or of a type that indicates infrequency of occurrence or both shall be reported as a separate component of income from continuing operations. The nature and financial effects of each event or transaction shall be presented as a separate component of income from continuing operations or, alternatively, disclosed in notes to financial statements. The amendments in this Update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. A reporting entity may apply the amendments prospectively. A reporting entity also may apply the amendments retrospectively to all prior periods presented in the financial statements. Early adoption is permitted provided that the guidance is applied from the beginning of the fiscal year of adoption. The Company is currently evaluating what impact, if any, its adoption will have to the presentation of the Company’s consolidated financial statements.

In August 2014, the FASB issued ASU 2014-15 “Presentation of Financial Statements – Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern.” ASU 2014-15 provides guidance in GAAP about management’s responsibility to evaluate whether there is substantial doubt about an entity’s ability to continue as a going concern and to provide related footnote disclosures. The Company is required to adopt ASU 2014-15 prospectively for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. Early application is permitted. The Company is currently evaluating what impact, if any, its adoption will have to the presentation of the Company’s consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, “Revenue from Contracts with Customers (Topic 606),” or ASU 2014-09. ASU 2014-09 requires an entity to recognize revenue in a manner that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, the amendment provides five steps that an entity should apply when recognizing revenue. The amendment also specifies the accounting of some costs to obtain or fulfill a contract with a customer and expands the disclosure requirements around contracts with customers. An entity can either adopt this amendment retrospectively to each prior reporting period presented or retrospectively with cumulative effect of initially applying the update recognized at the date of initial application. The amendment is effective for annual reporting periods beginning after December 15, 2016. Early adoption is not permitted. The Company is currently evaluating what impact, if any, its adoption will have to the Company’s consolidated financial statements.

NOTE K – SEGMENT INFORMATION

The following tables present a summary of the Company’s reportable segments for the three months ended March 31, 2015 and 2014. Financial results for the PLP-USA segment include the elimination of all segments’ intercompany profit in inventory.

	Three Months Ended March 31	
	2015	2014
Net sales		
PLP-USA	\$ 31,957	\$ 30,686
The Americas	16,147	23,234
EMEA	14,196	14,226
Asia-Pacific	23,490	21,779
Total net sales	<u>\$ 85,790</u>	<u>\$ 89,925</u>
Intersegment sales		
PLP-USA	\$ 2,818	\$ 2,725
The Americas	1,388	1,365
EMEA	423	362
Asia-Pacific	1,892	2,198
Total intersegment sales	<u>\$ 6,521</u>	<u>\$ 6,650</u>
Income taxes		
PLP-USA	\$ 66	\$ 839
The Americas	(375)	314
EMEA	528	338
Asia-Pacific	(22)	(92)
Total income taxes	<u>\$ 197</u>	<u>\$ 1,399</u>
Net income (loss)		
PLP-USA	\$ (826)	\$ 1,002
The Americas	(603)	1,330
EMEA	1,804	853
Asia-Pacific	(631)	(447)
Total net income	<u>\$ (256)</u>	<u>\$ 2,738</u>
	March 31,	December 31,
	<u>2015</u>	<u>2014</u>
Assets		
PLP-USA	\$ 97,779	\$ 99,850
The Americas	77,947	85,017
EMEA	49,803	51,691
Asia-Pacific	112,024	117,093
	<u>337,553</u>	<u>353,651</u>
Corporate assets	316	316
Total assets	<u>\$ 337,869</u>	<u>\$ 353,967</u>

NOTE L – INCOME TAXES

The Company's effective tax rate was -334% and 34% for the three months ended March 31, 2015 and 2014, respectively. The income tax expense for this period was determined based on an estimated annual effective tax rate of 31% for the twelve months ending December 31, 2015. The effective tax rate for three months ended March 31, 2015 differs from the estimated annual 2015 effective tax rate primarily due to losses of \$.9 million in certain jurisdictions where no tax benefit is recognized coupled with a low level of pre-tax loss for the period. The effective tax rate for the three months ended March 31, 2015 differs from the U.S. federal statutory tax rate of 35% primarily due to losses of \$.9 million in certain jurisdictions where no tax benefit is recognized coupled with lower earnings in jurisdictions with

lower tax rates than the U.S. federal statutory rate where such earnings are permanently reinvested. The lower effective tax rate for the three months ending March 31, 2015 compared with the same period for 2014 was primarily due to losses of \$.9 million in certain jurisdictions where no tax benefit is recognized, decreased earnings in jurisdictions with lower tax rates than the U.S. federal statutory rate where such earnings are permanently reinvested and overall lower earnings before taxes.

The Company provides valuation allowances against deferred tax assets when it is more likely than not that some portion or all of its deferred tax assets will not be realized. No significant changes to the valuation allowance were reflected for the period ended March 31, 2015.

As of March 31, 2015, the Company had gross unrecognized tax benefits of approximately \$.8 million with no significant changes during the period ended March 31, 2015. The Company may decrease its unrecognized tax benefits by \$.6 million within the next nine months.

NOTE M – PRODUCT WARRANTY RESERVE

The Company records an accrual for estimated warranty costs to Costs of products sold in the Consolidated Statements of Income. These amounts are recorded in Accrued expenses and other liabilities in the Consolidated Balance Sheets. The Company records and accounts for its warranty reserve based on specific claim incidents. Should the Company become aware of a specific potential warranty claim for which liability is probable and reasonably estimable, a specific charge is recorded and accounted for accordingly. Adjustments are made quarterly to the accruals as claim information changes.

The following is a rollforward of the product warranty reserve:

	<u>Three Months Ended March 31</u>	
	<u>2015</u>	<u>2014</u>
Balance at the beginning of period	\$ 892	\$ 1,140
Additions charged to income	32	98
Warranty usage	(107)	0
Currency translation	(34)	(6)
End of period balance	<u>\$ 783</u>	<u>\$ 1,232</u>

NOTE N – BUSINESS COMBINATIONS

On January 31, 2014, the Company acquired Helix Uniformed Limited (Helix), located in Montreal, Quebec, Canada. From an accounting perspective, the acquisition is not considered material. The acquisition of Helix will diversify the Company's business in Canada, expand its manufacturing footprint and enhance its engineering capabilities. The results of Helix are included in The Americas reportable segment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to help the readers of our financial statements better understand our results of operations, financial condition and present business environment. The MD&A is provided as a supplement to, and should be read in conjunction with, our unaudited consolidated financial statements and related notes included elsewhere in this report.

The MD&A is organized as follows:

- Overview
- Preface

- Results of Operations
- Application of Critical Accounting Policies and Estimates
- Working Capital, Liquidity and Capital Resources
- Recently Adopted Accounting Pronouncements
- New Accounting Standards to be Adopted

OVERVIEW

Preformed Line Products Company (the “Company”, “PLPC”, “we”, “us”, or “our”) was incorporated in Ohio in 1947. We are an international designer and manufacturer of products and systems employed in the construction and maintenance of overhead and underground networks for the energy, telecommunication, cable operators, information (data communication), and other similar industries. Our primary products support, protect, connect, terminate, and secure cables and wires. We also provide solar hardware systems and mounting hardware for a variety of solar power applications. Our goal is to continue to achieve profitable growth as a leader in the research, innovation, development, manufacture, and marketing of technically advanced products and services related to energy, communications and cable systems and to take advantage of this leadership position to sell additional quality products in familiar markets. We have 29 sales and manufacturing operations in 17 different countries.

We report our segments in four geographic regions: PLP-USA (including corporate), The Americas (includes operations in North and South America without PLP-USA), EMEA (Europe, Middle East & Africa) and Asia-Pacific in accordance with accounting standards codified in Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 280, Segment Reporting. Each segment distributes a full range of our primary products. Our PLP-USA segment is comprised of our U.S. operations manufacturing our traditional products primarily supporting our domestic energy and telecommunications products. Our other three segments, The Americas, EMEA and Asia-Pacific, support our energy, telecommunications, data communication and solar products in each respective geographical region.

The segment managers responsible for each region report directly to the Company’s Chief Executive Officer, who is the chief operating decision maker, and are accountable for the financial results and performance of their entire segment for which they are responsible. The business components within each segment are managed to maximize the results of the entire operating segment and company rather than the results of any individual business component of the segment.

We evaluate segment performance and allocate resources based on several factors primarily based on sales and net income.

PREFACE

Our consolidated financial statements are prepared in conformity with U.S. generally accepted accounting principles (GAAP). Our discussions of the financial results include non-GAAP measures (e.g., foreign currency impact) to provide additional information concerning our financial results and provide information that we believe is useful to the readers of our financial statements in the assessment of our performance and operating trends.

Our financial statements are subject to fluctuations in the exchange rates of foreign currencies in relation to the U.S. dollar. As foreign currencies weaken against the U.S. dollar, our revenues and costs decrease as the foreign currency-denominated financial statements translate into fewer U.S. dollars. On average, foreign currencies weakened against the U.S. dollar in the first quarter of 2015. The most significant currencies that contributed to this movement were the Australian dollar, the Brazilian real, the Canadian dollar and the South African rand. The fluctuations of foreign currencies during the three months ended March 31, 2015 had an unfavorable impact on net sales of \$6.5 million compared to the same period in 2014. On a reportable segment basis, the favorable (unfavorable) impact of foreign currency on net sales and net income for the three months ended March 31, 2015, was as follows:

<i>(Thousands of dollars)</i>	Foreign Currency Impact	
	Three Months Ended March 31, 2015	
	Net Sales	Net Income
The Americas	\$ (2,395)	\$ 48
EMEA	\$ (1,999)	\$ (129)
Asia-Pacific	\$ (2,090)	\$ 106
Total	\$ (6,484)	\$ 25

The following operating results for the three months ended March 31, 2015 are compared to the same period in 2014. Net sales for the three months ended March 31, 2015 of \$85.8 million decreased \$4.1 million, or 5%, compared to 2014. Excluding the effect of currency translation, net sales increased 3%. As a percentage of net sales, gross profit decreased to 28.9% of net sales from 30.5% of net sales in 2014. Gross profit of \$24.8 million decreased \$2.7 million compared to 2014. Excluding the effect of currency translation, gross profit decreased \$1.0 million, or 4%, compared to 2014. Costs and expenses of \$24.8 million increased \$1.6 million compared to 2014. Excluding the effect of translation, costs and expenses increased \$3.3 million compared to 2014. Operating income for the three months ended March 31, 2015 was a loss of \$.1 million, a decrease of \$4.3 million compared to 2014. Net loss for the three months ended March 31, 2015 of \$.3 million was a decrease of \$3.0 million compared to the net income in 2014. The effect of currency translation of the preceding factors was negligible on both operating loss and net loss compared to 2014; however, there was an incremental \$4.0 million in losses on foreign currency transactions that negatively impacted the operating results as summarized in the following table:

<i>(Thousands of dollars)</i>	Foreign Currency Translation Impact	
	Three Months Ended March 31	
	2015	2014
Operating income (loss)	\$ (85)	\$ 4,213
Translation (gain) loss	(11)	171
Transaction (gain) loss	3,354	(629)
Operating income excluding currency impact	\$ 3,258	\$ 3,755

Despite the current global economy, we believe our business fundamentals are sound and strategically well-positioned as we remain focused on managing costs, increasing sales volumes and delivering value to our customers. We have continued to invest in the business to improve efficiency, develop new products, increase our capacity and become an even stronger supplier to our customers. We currently have a bank debt to equity ratio of 14.0% and can borrow needed funds at an attractive interest rate under our credit facility.

RESULTS OF OPERATIONS

THREE MONTHS ENDED MARCH 31, 2015 COMPARED TO THREE MONTHS ENDED MARCH 31, 2014

The following table sets forth a summary of the Company's Statement of Consolidated Income and the percentage of net sales for the three months ended March 31, 2015 and 2014. The Company's past operating results are not necessarily indicative of future operating results.

	Three Months Ended March 31					
	2015		2014		Change	% Change
<i>(Thousands of dollars)</i>						
Net sales	\$ 85,790	100.0%	\$ 89,925	100.0%	\$ (4,135)	(5) %
Cost of products sold	61,030	71.1	62,477	69.5	(1,447)	(2)
GROSS PROFIT	24,760	28.9	27,448	30.5	(2,688)	(10)
Costs and expenses	24,845	29.0	23,235	25.8	1,610	7
OPERATING INCOME	(85)	(0.1)	4,213	4.7	(4,298)	(102)
Other income (expense)	26	0.0	(76)	(0.1)	102	NM
INCOME BEFORE INCOME TAXES	(59)	(0.1)	4,137	4.6	(4,196)	(101)
Income taxes	197	0.2	1,399	1.6	(1,202)	(86)
NET INCOME	\$ (256)	(0.3%)	\$ 2,738	3.0%	\$ (2,994)	(109) %

NM- Not meaningful.

Net sales. For the three months ended March 31, 2015, net sales were \$85.8 million, a decrease of \$4.1 million, or 5%, from the three months ended March 31, 2014. Excluding the effect of currency translation, net sales increased \$2.3 million, or 3% as summarized in the following table:

	Three Months Ended March 31					
	2015	2014	Change	Change Due to Currency Translation	Change Excluding Currency Translation	% Change
<i>(Thousands of dollars)</i>						
Net sales						
PLP-USA	\$ 31,957	\$ 30,686	\$ 1,271	\$ 0	\$ 1,271	4 %
The Americas	16,147	23,234	(7,087)	(2,395)	(4,692)	(20)
EMEA	14,196	14,226	(30)	(1,999)	1,969	14
Asia-Pacific	23,490	21,779	1,711	(2,090)	3,801	17
Consolidated	\$ 85,790	\$ 89,925	\$ (4,135)	\$ (6,484)	\$ 2,349	3 %

The increase in PLP-USA net sales of \$1.3 million, or 4%, was primarily due to an increase in export sales along with growth in domestic telecommunications volume. International net sales for the three months ended March 31, 2015 were unfavorably affected by \$6.5 million when local currencies were converted to U.S. dollars. The following discussion of net sales excludes the effect of currency translation. The Americas net sales of \$16.1 million declined \$4.7 million, or 20%, with a decrease primarily in solar and transmission sales. EMEA net sales of \$14.2 million increased \$2.0 million, or 14%, primarily due to an increase in telecommunications and transmission projects in the region. In Asia-Pacific, net sales of \$23.5 million increased \$3.8 million, or 17%, compared to 2014. The increase in net sales was primarily due to an increase in solar and transmission sales in the region even though governments deferred the construction of transmission lines in a few locations in the region.

Gross profit. Gross profit of \$24.8 million for the three months ended March 31, 2015 decreased \$2.7 million, or 10%, compared to the three months ended March 31, 2014. Excluding the effect of currency translation, gross profit decreased \$1.0 million, or 4% as summarized in the following table:

Three Months Ended March 31						
(Thousands of dollars)	2015	2014	Change	Change	Change	% Change
				Due to Currency Translation	Excluding Currency Translation	
Gross profit						
PLP-USA	\$ 11,025	\$ 10,415	\$ 610	\$ 0	\$ 610	6 %
The Americas	3,642	6,208	(2,566)	(652)	(1,914)	(31)
EMEA	5,367	4,845	522	(686)	1,208	25
Asia-Pacific	4,726	5,980	(1,254)	(352)	(902)	(15)
Consolidated	\$ 24,760	\$ 27,448	\$ (2,688)	\$ (1,690)	\$ (998)	(4) %

PLP-USA gross profit of \$11.0 million increased \$.6 million compared to the same period in 2014. PLP-USA's increase was generated through an increase in sales volume and the mix of sales led to a higher gross profit rate for 2015 compared to 2014. International gross profit for the three months ended March 31, 2015 was unfavorably impacted by \$1.7 million when local currencies were translated to U.S. dollars. The following discussion of gross profit excludes the effects of currency translation. The Americas gross profit decrease of \$1.9 million was primarily the result of the \$4.7 million sales decline coupled with some gross profit degradation due to foreign currency exchange losses for certain raw material acquisitions. The EMEA gross profit increased \$1.2 million as a result of a \$2.0 million sales increase coupled with improved gross profit due to a shift in sales mix. Asia-Pacific gross profit decreased \$.9 million as a result of a shift in sales mix towards lower gross profit sales in a few of the locations.

Costs and expenses. Costs and expenses of \$24.8 million for the three months ended March 31, 2015 increased \$1.6 million, or 7%, compared to 2014. Excluding the effect of currency translation, costs and expenses increased \$3.3 million, or 14% as summarized in the following table:

Three Months Ended March 31						
(Thousands of dollars)	2015	2014	Change	Change	Change	% Change
				Due to Currency Translation	Excluding Currency Translation	
Costs and expenses						
PLP-USA	\$ 11,694	\$ 8,508	\$ 3,186	\$ 0	\$ 3,186	37 %
The Americas	4,652	4,491	161	(726)	887	20
EMEA	3,093	3,699	(606)	(511)	(95)	(3)
Asia-Pacific	5,406	6,537	(1,131)	(465)	(666)	(10)
Consolidated	\$ 24,845	\$ 23,235	\$ 1,610	\$ (1,702)	\$ 3,312	14 %

PLP-USA costs and expenses increased \$3.2 million primarily due to higher net foreign currency exchange losses of \$2.9 million and reduced royalty income partially offset by a reduction of personnel costs. The foreign currency exchange losses are primarily related to translating into U.S. dollars our foreign currency denominated loans, trade receivables and royalty receivables from foreign subsidiaries at the quarter-end exchange rates. International costs and expenses for the three months ended March 31, 2015 were favorably impacted by \$1.7 million when local currencies were translated to U.S. dollars. The following discussion of costs and expenses excludes the effect of currency translation. The Americas costs and expenses of \$4.7 million increased \$.9 million primarily due to net foreign currency exchange losses. EMEA costs and expenses of \$3.1 million decreased \$.1 million due primarily to lower commission expense in the region. Asia-Pacific costs and expenses of \$5.4 million decreased \$.7 million primarily due to savings in personnel costs from staffing modifications implemented in 2014 along with overall tighter expense management.

Other income. Other income (expense) for the three months ended March 31, 2015 increased \$.1 million compared to 2014.

Income taxes. Income taxes for the three months ending March 31, 2015 and 2014 were \$.2 million and \$1.4 million, respectively, based on pretax loss of \$.1 million and pretax income of \$4.1 million, respectively. The effective tax rate for the three months ending March 31, 2015 and 2014 was -334% and 34%, respectively, compared to the U.S. federal statutory rate of 35%. Our tax rate is affected by recurring items, such as tax rates in foreign jurisdictions and the relative amount of income we earn in those jurisdictions. It is also affected by discrete items that may occur in any given year but are not consistent from year to year. In addition to state and local income taxes, the following items had the most significant impact on the difference between our statutory U.S. federal income tax rate of 35% and our effective tax rate:

2015

1. A \$.3 million (-581%) increase resulting from losses in certain jurisdictions where no tax benefit is recognized.
2. A \$.1 million (212%) decrease resulting from earnings in jurisdictions with lower tax rates than the U.S. federal statutory rate where such earnings are permanently reinvested.

2014

1. A \$.1 million (1%) decrease resulting from earnings in jurisdictions with lower tax rates than the U.S. federal statutory rate where such earnings are permanently reinvested.

The income tax expense for this period was determined based on an estimated annual effective tax rate of 31% for the twelve months ending December 31, 2015. The effective tax rate was 39.9% for the twelve months ending December 31, 2014. The 2015 estimated annual effective tax rate is lower than the actual effective tax rate for 2014 primarily due to the Company providing a valuation allowance in 2014 against deferred tax assets attributable to operating losses and other deferred tax assets in certain foreign jurisdictions.

Net income. As a result of the preceding items, the net loss for the three months ended March 31, 2015 was \$.3 million, compared to net income of \$2.7 million for the three months ended March 31, 2014. Excluding the effect of currency translation, net income decreased \$3.0 million as summarized in the following table:

	Three Months Ended March 31					
	(Thousands of dollars)		Change	Change	Change	%
	2015	2014	Change	Due to Currency Translation	Excluding Currency Translation	Change
Net income (loss)						
PLP-USA	\$ (826)	\$ 1,002	\$ (1,828)	\$ 0	\$ (1,828)	(182) %
The Americas	(603)	1,330	(1,933)	48	(1,981)	(149)
EMEA	1,804	853	951	(129)	1,080	127
Asia-Pacific	(631)	(447)	(184)	106	(290)	65

NM- Not Meaningful

PLP-USA net income decreased \$1.8 million due to a \$2.6 million decrease in operating income partially offset by a decrease in income taxes of \$.8 million. International net income for the three months ended March 31, 2015 was marginally affected when local currencies were converted to U.S. dollars. The following discussion of net income excludes the effect of currency translation. The Americas net income decreased \$2.0 million as a result of a \$2.8 million decrease in operating income partially offset by a decrease in income taxes of \$.7 million. EMEA net income increased \$1.1 million as a result of generating an incremental \$1.3 million of operating income partially reduced by \$.2 million of incremental taxes. Asia-Pacific net loss increased \$.3 million as a result of an incremental \$.2 million operating loss along with increased income taxes of \$.1 million primarily due to the Company's decision not to recognize the tax benefit attributable to operating losses for certain locations within the segment.

APPLICATION OF CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our critical accounting policies are consistent with the information set forth in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, included in our Form 10-K for the year ended December 31, 2014 and are, therefore, not presented herein.

WORKING CAPITAL, LIQUIDITY AND CAPITAL RESOURCES

Management Assessment of Liquidity

We measure liquidity on the basis of our ability to meet short-term and long-term operating needs, fund additional investments, including acquisitions, and make dividend payments to shareholders. Significant factors affecting the management of liquidity are cash flows from operating activities, capital expenditures, cash dividends, business acquisitions and access to bank lines of credit.

Our investments include expenditures required for equipment and facilities as well as expenditures in support of our strategic initiatives. In the first quarter of 2015, we used cash of \$2.3 million for capital expenditures. We ended the first quarter of 2015 with \$30.5 million of cash and cash equivalents. Our cash and cash equivalents are held in various locations throughout the world. We complete comprehensive reviews of our significant customers and their creditworthiness by analyzing financial statements for customers where we have identified a measure of increased risk. We closely monitor payments and developments which may signal possible customer credit issues. We currently have not identified any potential material impact on our liquidity from customer credit issues.

Our financial position remains strong and our current ratio was 3.9 to 1 at March 31, 2015. Total debt at March 31, 2015 was \$32.6 million. At March 31, 2015, our unused availability under our line of credit was \$19.5 million and our bank debt to equity percentage was 14.0%. The term of our credit facility extends through January 2017 at an interest rate of LIBOR plus 1.125%. The line of credit agreement contains, among other provisions, requirements for maintaining levels of working capital, net worth and profitability. At March 31, 2015 and December 31, 2014, we were in compliance with these covenants.

We expect that our major source of funding for 2015 and beyond will be our operating cash flows, our existing cash and cash equivalents as well as our line of credit agreement. We believe our future operating cash flows will be more than sufficient to cover debt repayments, other contractual obligations, capital expenditures and dividends. In addition, we believe our borrowing capacity provides substantial financial resources, if needed, to supplement funding of capital expenditures and/or acquisitions. We do not believe we would increase our debt to a level that would have a material adverse impact upon results of operations or financial condition.

We earn a significant amount of our operating income outside the United States, which, except for current earnings, is deemed to be indefinitely reinvested in foreign jurisdictions. At March 31, 2015, the majority of our cash and cash equivalents are held outside the U.S. We currently do not intend nor foresee a need to repatriate these funds. We expect domestic cash generated from operations, U.S. cash balances, external borrowings, or some combination of these sources to be sufficient to fund our domestic operating activities and cash commitments for investing and financing activities, such as regular quarterly dividends, debt repayment, and capital expenditures, for at least the next 12 months and thereafter for the foreseeable future.

Sources and Uses of Cash

Cash increased \$.9 million for the three months ended March 31, 2015. Net cash provided by operating activities was \$.6 million. The major investing and financing uses of cash were capital expenditures of \$2.3 million, dividends of \$1.1 million and a net repayment of borrowings of \$.7 million. Currency had a favorable \$1.7 million impact on cash and cash equivalents when translating foreign denominated financial statements to U.S. dollars.

Net cash provided by operating activities for the three months ended March 31, 2015 increased \$1.8 million compared to the three months ended March 31, 2014 primarily as a result of a decrease in operating assets (net of operating liabilities) of \$6.6 million, partially offset by a decrease in net income of \$3.0 million and a decrease in non-cash items of \$1.8 million.

Net cash provided by investing activities for the three months ended March 31, 2015 of \$.6 million represents an increase of \$21.0 million when compared to cash used in investing activities in the three months ended March 31, 2014. The increase was primarily related to cash expended for the business acquisition of Helix in the first quarter of 2014 of \$13.9 million, net of cash acquired, along with a decline of capital expenditures of \$4.2 million and a reduction in restricted cash of \$2.3 million in the three months ended March 31, 2015 compared to the same period in 2014.

Cash used in financing activities for the three months ended March 31, 2015 was \$2.0 million compared to \$19.4 million cash provided from financing activities for the three months ended March 31, 2014. The decrease of \$21.4 million was primarily a result of a decrease in net debt borrowings in 2015 compared to 2014 of \$21.3 million primarily related to the Helix acquisition in 2014 and an increase in loan payments in 2015.

RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS

In April 2014, the FASB issued ASU 2014-08, “Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity,” or ASU 2014-08. ASU 2014-08 changes the criteria for reporting a discontinued operation. Under the new pronouncement, a disposal of a part of an organization that has a major effect on its operations and financial results is a discontinued operation. We are required to adopt ASU 2014-08 prospectively for all disposals or components of the business classified as held for sale during the fiscal period beginning after December 15, 2014. We adopted the guidance in the first quarter of 2015 and it did not have an effect on our results of operations, financial condition or cash flow.

NEW ACCOUNTING STANDARDS TO BE ADOPTED

In January 2015, the FASB issued Accounting Standards Update 2015-01, “Income Statement-Extraordinary and Unusual Items (Subtopic 225-20): Simplifying Income Statement Presentation by Eliminating the Concept of Extraordinary Items.” This Update eliminates from GAAP the concept of extraordinary items. A material event or transaction that an entity considers to be of an unusual nature or of a type that indicates infrequency of occurrence or both shall be reported as a separate component of income from continuing operations. The nature and financial effects of each event or transaction shall be presented as a separate component of income from continuing operations or, alternatively, disclosed in notes to financial statements. The amendments in this Update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. A reporting entity may apply the amendments prospectively. A reporting entity also may apply the amendments retrospectively to all prior periods presented in the financial statements. Early adoption is permitted provided that the guidance is applied from the beginning of the fiscal year of adoption. We are currently evaluating what impact, if any, its adoption will have to the presentation of our consolidated financial statements.

In August 2014, the FASB issued ASU 2014-15 “Presentation of Financial Statements – Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern.” ASU 2014-15 provides guidance in GAAP about management’s responsibility to evaluate whether there is substantial doubt about an entity’s ability to continue as a going concern and to provide related footnote disclosures. The Company is required to adopt ASU 2014-15 prospectively for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. Early application is permitted. We are currently evaluating what impact, if any, its adoption will have to the presentation of our consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, “Revenue from Contracts with Customers (Topic 606),” or ASU 2014-09. ASU 2014-09 requires an entity to recognize revenue in a manner that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, the amendment provides five steps that an entity should apply when recognizing revenue. The amendment also specifies the accounting of some costs to obtain or fulfill a contract with a customer and expands the disclosure requirements around contracts with customers. An entity can either adopt this amendment retrospectively to each prior reporting period presented or retrospectively with cumulative effect of initially applying the update recognized at the date of initial application. The amendment is effective for annual reporting periods beginning after December 15, 2016. Early adoption is not permitted. We are currently evaluating what impact, if any, its adoption will have to our consolidated financial statements.

FORWARD LOOKING STATEMENTS

Cautionary Statement for “Safe Harbor” Purposes Under The Private Securities Litigation Reform Act of 1995

This Form 10-Q and other documents we file with the Securities and Exchange Commission (“SEC”) contain forward-looking statements regarding the Company’s and management’s beliefs and expectations. As a general matter, forward-looking statements are those focused upon future plans, objectives or performance (as opposed to historical items) and include statements of anticipated events or trends and expectations and beliefs relating to matters not historical in nature. Such forward-looking statements are subject to uncertainties and factors relating to the Company’s operations and business environment, all of which are difficult to predict and many of which are beyond the Company’s control. Such uncertainties and factors could cause the Company’s actual results to differ materially from those matters expressed in or implied by such forward-looking statements.

The following factors, among others, could affect the Company’s future performance and cause the Company’s actual results to differ materially from those expressed or implied by forward-looking statements made in this report:

- The overall demand for cable anchoring and control hardware for electrical transmission and distribution lines on a worldwide basis, which has a slow growth rate in mature markets such as the United States (U.S.), Canada, Australia and Western Europe and may grow slowly or experience prolonged delay in developing regions despite expanding power needs;
- The potential impact of the global economic condition on the Company’s ongoing profitability and future growth opportunities in our core markets in the U.S. and other foreign countries where the financial situation is expected to be similar going forward;
- Decrease in infrastructure spending globally as a result of worldwide depressed spending;
- The ability of our customers to raise funds needed to build the facilities their customers require;
- Technological developments that affect longer-term trends for communication lines, such as wireless communication;
- The decreasing demand for product supporting copper-based infrastructure due to the introduction of products using new technologies or adoption of new industry standards;
- The Company’s success at continuing to develop proprietary technology and maintaining high quality products and customer service to meet or exceed new industry performance standards and individual customer expectations;
- The Company’s success in strengthening and retaining relationships with the Company’s customers, growing sales at targeted accounts and expanding geographically;
- The extent to which the Company is successful at expanding the Company’s product line or production facilities into new areas or implementing efficiency measures at existing facilities;
- The effects of fluctuation in currency exchange rates upon the Company’s reported results from international operations, together with non-currency risks of investing in and conducting significant operations in foreign countries, including those relating to political, social, economic and regulatory factors;
- The Company’s ability to identify, complete, obtain funding for and integrate acquisitions for profitable growth;
- The potential impact of consolidation, deregulation and bankruptcy among the Company’s suppliers, competitors and customers;
- The relative degree of competitive and customer price pressure on the Company’s products;

- The cost, availability and quality of raw materials required for the manufacture of products;
- Strikes and other labor disruptions;
- Changes in significant government regulations affecting environmental compliances;
- The telecommunication market's continued deployment of Fiber-to-the-Premises; and
- Those factors described under the heading "Risk Factors" on page 12 of the Company's Annual Report on Form 10-K for the year ended December 31, 2014 filed on March 12, 2015.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company operates manufacturing facilities and offices around the world and uses fixed and floating rate debt to finance the Company's global operations. As a result, the Company is subject to business risks inherent in non-U.S. activities, including political and economic uncertainty, import and export limitations and market risk related to changes in interest rates and foreign currency exchange rates. The Company believes the political and economic risks related to the Company's international operations are mitigated due to the stability of the countries in which the Company's largest international operations are located.

As of March 31, 2015, the Company had no foreign currency forward exchange contract outstanding. The Company does not hold derivatives for trading purposes.

The Company's primary currency rate exposures are related to foreign denominated debt, intercompany debt, forward exchange contracts, foreign denominated receivables and cash and short-term investments. A hypothetical 10% change in currency rates would have a favorable/unfavorable impact on fair values on such instruments of \$7.1 million and on income before tax of \$3.5 million.

The Company is exposed to market risk, including changes in interest rates. The Company is subject to interest rate risk on its variable rate revolving credit facilities and term notes, which consisted of borrowings of \$32.6 million at March 31, 2015. A 100 basis point increase in the interest rate would have resulted in an increase in interest expense of approximately \$.3 million for the three months ended March 31, 2015.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company's Principal Executive Officer and Principal Financial Officer have concluded that the Company's disclosure controls and procedures as defined in Rule 13a-15(e) or Rule 15d-15(e) of the Securities Exchange Act of 1934, as amended, were effective as of March 31, 2015.

Changes in Internal Control over Financial Reporting

There have not been any changes in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f)) during the quarter ended March 31, 2015 that materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is subject to various legal proceedings and claims that arise in the ordinary course of business. In the opinion of management, the amount of any ultimate liability with respect to these actions will not materially affect our financial condition, results of operations or cash flows.

ITEM 1A. RISK FACTORS

There were no material changes from the risk factors previously disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2014 filed with the Securities and Exchange Commission on March 12, 2015.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On February 24, 2014, the Company announced that the Board of Directors authorized a plan to repurchase up to 250,000 of Preformed Line Products Company common shares. The repurchase plan does not have an expiration date. The following table includes repurchases for the three months ended March 31, 2015:

<u>Period (2015)</u>	<u>Total Number of Shares Purchased</u>	<u>Average Price Paid per Share</u>	<u>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs</u>	<u>Maximum Number of Shares that may yet be Purchased under the Plans or Programs</u>
January	1,500	\$49.23	5,613	244,387
February	0	\$0.00	5,613	244,387
March	3,087	\$45.39	8,700	241,300
Total	<u>4,587</u>			

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

None.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS

- 31.1 Certifications of the Principal Executive Officer, Robert G. Ruhlman, pursuant to Section 302 of the Sarbanes-Oxley Act of 2002, filed herewith.

CERTIFICATION PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Robert G. Ruhlman, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Preformed Line Products Company;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and we have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
