

POWER DISK™ Mounting System

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Description

The **POWER DISK™** system offers a simple and cost effective solution to residential roof top mounting. The "rail-less" design features a unique base that attaches anywhere on the roof for easier modular layout. POWER DISK is quick to install with fewer components and tools required than traditional rail systems. Vertical adjustments are made easily by simply spinning the disk. POWER DISK includes integrated grounding and is compatible with most framed PV modules.

Design Your Next Project

NEW POWER DISK Design Tool

- Optimize your residential roof layouts with the unique deck mount attachment.
- Built-in code compliant engineering and simple user interface
